2010 Highlights

Yukon Delta Fisheries Development Association (YDFDA) has come a long way since its inception in 1992. Over the years our CDQ quota has translated into investment opportunities both inside and outside the region which ultimately providing greater benefits to our member residents.

We would like to emphasize the in-region benefits in addition to our training and scholarship programs. These benefits include Kwikpak Fisheries who buys salmon from Yukon Delta residents providing economic opportunities. Yukon Marine Manufacturing building and repairing boats for Yukon Delta residents. The formation of Yukon River Towing which began operating in 2010 hauling gravel and rock throughout the Yukon Delta region.

Kwikpak Fisheries, a subsidiary of YDFDA, was the only buyer

on the river for the 2010 salmon seasons. Kwikpak Fisheries purchased 1,328,237 pounds of salmon infusing \$1,668,205 directly into the pockets 418 fishermen.

Kwikpak Fisheries employed 344 residents with wages of \$1,266,893. This included employment of 103 students ranging in age from 14–17 in the Youth Program with wages of \$145,761.

Residents working on fishing vessels totaled 42 with wages of \$467,226.

Combined regional employment and payments to fishermen infused a total of \$4,579,267 into the local economy in 2010.

YDFDA provided funding to the Alaska Department of Fish and Game (ADF&G) to assist with various projects in 2010. YDFDA provided funding to initiate an offshore test fishery for Chinook and summer chum off of Dall Point in the vicinity of Hooper Bay. It is hoped that this project will provide an early indication of salmon prior to entering the Yukon River. YDFDA also provided funding and support for a summer test fishery at Mountain Village to further verify that the composition of salmon stocks at the Pilot Station sonar was correct. Another project was to hire local technicians to assist ADF&G

at Emmonak with projects which included the summer chum and Chinook test nets and sampling followed by the fall chum and coho test fishing and sampling. YDFDA also provided funding to collect fall whitefish and lamprey samples. These projects provide hands on experience to young people interested in continuing in this profession. Several residents participated in the internship program with ADF&G. YDFDA also provided funding and support for a summer test fishery at Mountain Village to further verify that the composition of salmon stocks at the Pilot Station sonar was correct.

YDFDA purchased a fish wheel from a resident of Grayling and moved it to the Lower Yukon, and then built another one. Both were positioned in the lower river to determine if a fish wheel could

catch fish in a tidal area. This project is ongoing.

Kwikpak Fisheries conducted an Arctic lamprey fishery in the village of Grayling. Over 32,000 pounds of lamprey were purchased for a value of \$41,000.

For the fifth year, Kwikpak Fisheries purchased cisco and other whitefish from local fishermen. Over 13,500 pounds were purchased with a value to local fishermen of almost \$17,000. Kwikpak Fisheries has a greater market for this product than it can supply.

In 2010, Yukon Marine Manufacturing completed fabrication on 23 new skiffs. In addition, numerous repairs and modifications were done for residents on existing skiffs. Ten local residents were employed at Yukon Marine Manufacturing. Eighteen skiffs were sold in 2010.

The YDFDA Scholarship program awarded 63 scholarships to students attending both universities and vocational institutions. Scholarships awarded amounted to \$190,228.

30 residents took advantage of first aid/CPR training.

925 YDFDA residents took advantage of employment opportunities made available through YDFDA and

subsidiaries. This resulted in wages of \$4,579,267 going back to the communities.

In 2010 YDFDA sponsored numerous fishermen, both subsistence and commercial, to attend and testify at the Board of Fish Meetings in Fairbanks. Fishermen provided input on matters of concern to the lower river.

Since 2000 YDFDA has partnered with the Alaska Business Development Center, Inc. sponsoring the Volunteer Tax and Loan Program (VTLP) that assists taxpayers in YDFDA communities with the completion of their tax returns and provides them with taxpayer education. In 2010,

856 people were assisted and \$749,746 in tax refunds was returned to our local taxpayers.

YDFDA, in conjunction with the State of Alaska Division of Investments, has a loan guarantee program which allows folks the opportunity to apply for a loan from the State of Alaska for fisheries related gear.

We are excited about the future and look forward to 2011 as the Board of Directors and administration explore more opportunities to provide community and economic development benefits to our residents and the entire Lower Yukon region.

YDFDA's In-Region Companies

KWIKPAK Fisheries, LLC

SALMON

In 2010 Kwikpak Fisheries operated for the ninth consecutive year as the only salmon buyer operating

on the Lower Yukon River. Buying operations were conducted in Emmonak, Kotlik, Mountain Village and St. Mary's. Kwikpak Fisheries bought a total of 1,328,237 pounds of salmon in 2010. An ex-vessel value of catch put \$1,668,205 into the pockets of local fishermen.

In 2004 Kwikpak launched an aggressive marketing campaign to promote fresh wild Yukon River salmon. This campaign was continued in 2010 with Kwikpak selling Yukon

River salmon for premium prices across the globe. We are very pleased with the

results of this ongoing program to sell fresh and frozen wild Yukon River salmon. Kwikpak is also working to develop markets for other fisheries on the Yukon River

in addition to salmon. In 2010 we again purchased cisco, whitefish and lamprey in a continuing effort to develop a commercial market for these fisheries.

In addition to providing a market for local fishermen, Kwikpak Fisheries employed 344 residents with total wages of \$1,266,893. Residents received training in all aspects of the fish buying operation. This included operating equipment, maintaining ice machines and dressing salmon. We are very proud of our internship program where we employ high school students to work in the Kwikpak Fisheries office in Emmonak. The Youth Program employed 103 students ranging in age from 14–17 with wages of \$145,761. Kwikpak's direct impact into the communities on the Lower Yukon totaled over \$3.5 million.

ARCTIC LAMPREY

Kwikpak Fisheries conducted an Arctic lamprey fishery in the village of Grayling. Over 32,000 pounds of lamprey were purchased with a value to fishermen of over \$41,000.

YUKON WHITEFISH

For the sixth year, Kwikpak Fisheries purchased cisco and other whitefish from local fishermen. 13,500 pounds of cisco were purchased with a value to

FUR BUYING

Fur buying began in earnest in 2010. Kwikpak fur buying was based in Mountain Village and approximately 25 area trappers produced \$32,000 in fur. This was the first attempt at re-establishing a traditional business that had previously been a base industry in Western Alaska. It was the first time in several decades where villages on the Lower Yukon enjoyed the benefits of having a local fur buyer make scheduled buying trips into the villages.
